
Bloodborne Pathogen Exposure Control

Why the Global Market is Paying a Premium for This Skill Set

Source: McKinsey Global Institute, World Economic Forum, OECD (2026)

Trend Driver | Why It Matters | Global Source

Increasing Healthcare Workforce Safety Regulations | Stricter global standards are driving hospitals to invest heavily in certified staff to avoid costly penalties | World Economic Forum

Rise in Global Infectious Disease Outbreaks | Higher incidence of bloodborne threats elevates the need for experts who can implement rapid containment protocols | McKinsey Global Institute

Growth of Telehealth and Remote Care Services | Digital health platforms require staff trained in exposure control to ensure safe sample handling across dispersed networks | OECD
