
Advanced Skill Certificate in Coping with Compassion Fatigue in Mental Health

Why the Global Market is Paying a Premium for This Skill Set

Source: McKinsey Global Institute, World Economic Forum, OECD (2026)

Trend Driver | Why It Matters | Global Source

Escalating Mental Health Workforce Burnout | Burnout is causing up to 30% of clinicians to leave, inflating global talent shortages and raising recruitment costs for every organization. | World Economic Forum
Increasing Investment in Employee Well-Being Programs | Companies are allocating an average of USD \$12k per employee to resilience initiatives, creating premium pay for certified specialists. | McKinsey Global Institute

Regulatory Pressure for Provider Resilience | New OECD guidelines require documented coping strategies, prompting healthcare systems to prioritize certified training to maintain accreditation. | OECD
