
Digital Transformation for Healthcare Quality Improvement

Why the Global Market is Paying a Premium for This Skill Set

Source: McKinsey Global Institute, World Economic Forum, OECD (2026)

Trend Driver | Why It Matters | Global Source

Escalating demand for value-based care | Hospitals worldwide are shifting to outcomes-based reimbursement, creating urgent need for digital tools that can measure and improve quality | World Economic Forum

AI-driven analytics reshaping clinical decision-making | AI can reduce diagnostic errors and streamline workflows, delivering cost savings estimated at \$2.5 trillion globally | McKinsey Global Institute

Regulatory pressure for interoperable health data | New standards such as ISO 27799 push organizations to adopt digital platforms that ensure data continuity across borders | OECD
